

Residential thermoregulation

COSMObit™

Home temperature always under control

ALWAYS CONNECTED

HOME TEMPERATURE ALWAYS UNDER CONTROL

COSMObit is the innovative Cosmogas Wi-Fi room thermostat that allows you to manage your MYdens and Q30 boilers directly from a smartphone or tablet.

- **SIMPLE TO INSTALL AND EASY TO USE** - Just follow the step by step guide to the configuration that makes the system immediately operational.

- **ENERGY SAVING CONTROL** - With **COSMObit** will always be possible to control the temperature, program the times and days of switching on and off! Wherever you are!
- **AVAILABLE** to combine with MYdens and Q30 boilers.

COSMObit™

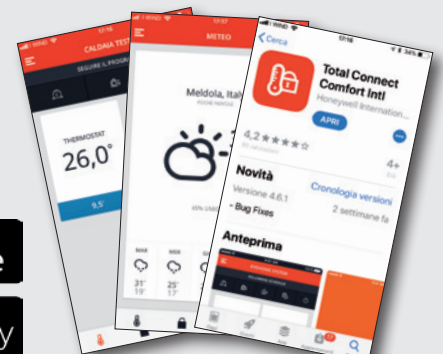

available to combine with MYdens and Q30 boilers

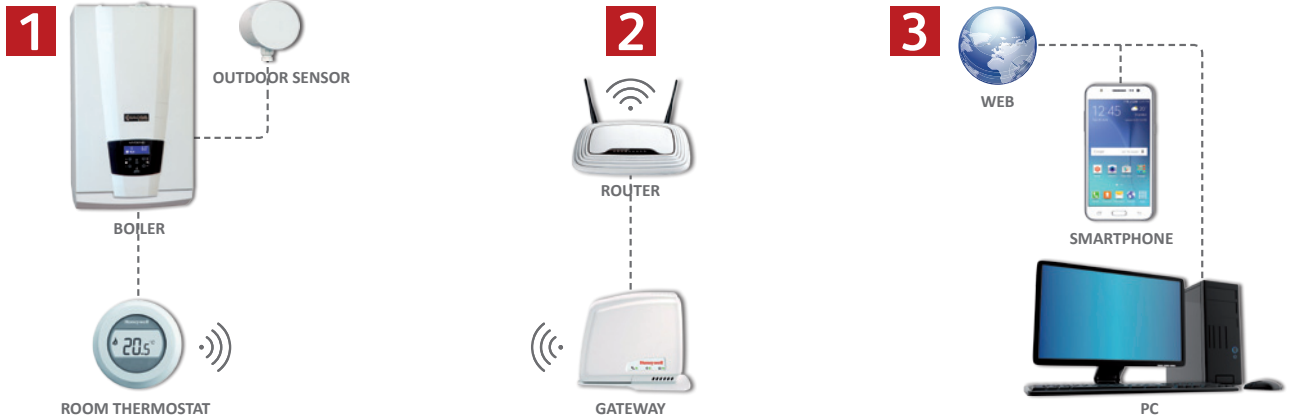

APP - CONTROL THE TEMPERATURE WHEREVER YOU ARE

Download the APP **Total Connect Comfort** to:

- To remotely manage **COSMObit** and the temperature of the house in a simple and intuitive way
- Adjust the home temperature from +5°C to +28.5°C (in increments of 0.5°C)
- Create time slots and set weekly programs in 10-minute intervals
- Consult the weather forecast
- The same thermostat can be managed by different users, simply by installing the APP on multiple smartphones.

COSMOBIT INSTALLATION IN THREE STEPS

THERMOSTAT INSTALLATION

- Room thermostat easy and intuitive. It can be controlled with a simple touch.
- Without Internet connection it allows to change the temperature and displays any operating alarms.

INTERNET CONNECTION SETUP

- Install the gateway device and set it up by accessing the portal www.mytotalconnectcomfort.com or directly from the APP, creating your account.

CREATE AN ACCOUNT

- Create a new account at the first access: from the portal or from the APP and it will be activated via a confirmation e-mail.

DIFFERENT OPERATING MODES

SAVING MODE: with this mode you can reduce the temperature of 3°C forever or program it from hour to hour up to 24h

SUMMER MODE: with this mode you can set the temperature to 5°C

HOLIDAY MODE: with this mode you can limit the operating to 15°C

EASILY SETTING YOUR ROOM TEMPERATURE

Your current room temperature is shown in the display. To set the temperature you want, just turn the dial right to increase and left to decrease.

Each “click” as the dial turns represents a 0.5°C change.

The set temperature will flash up for a few seconds, before returning to display the room temperature again.

COSMOBIT – RAM THE PORTAL FOR MONITORING

COSMObit offers its users the opportunity to obtain a new innovative service from the Cosmogas Service Centre: remote monitoring of the boiler so as to always guarantee the desired comfort and tranquillity and prevent any malfunction.

By connecting the COSMObit to the gateway, you can even authorize your trusted technician to keep the boiler under control through the COSMOGAS RAM portal, the innovative management platform created for COSMOGAS Service Centres.

In case of malfunction of the boiler, the Cosmogas Service Centre will be immediately informed, in order not to remain ever more in the cold and without hot water!
